Summary

Experienced frontend engineer with a proven track record of designing and developing innovative web applications. Adept at collaborating with cross-functional teams to deliver high-quality and user-friendly interfaces. Strong coding skills and a passion for creating seamless user experiences.

Work Experience

Alibaba Group - Senior Frontend Engineer

June 2020 - Present

- Led the frontend development team for a high-traffic e-commerce platform, contributing to a 20% increase in user engagement and a 15% decrease in bounce rate.
- Implemented responsive design principles, improving mobile user experience and increasing mobile conversion rates by 18%.
- Collaborated closely with UX/UI designers to create visually appealing and intuitive interfaces.
- Developed reusable components and libraries, reducing development time by 30% and ensuring consistent UI across the platform.

ByteDance - Frontend Developer

July 2017 - May 2020

- Played a key role in the development of a video-sharing application, contributing to its rapid growth and achieving 50 million downloads within the first year.
- Implemented real-time video streaming using WebRTC, enhancing user engagement and interaction.
- Optimized application performance by identifying and resolving performance bottlenecks, resulting in a 25% decrease in load times.
- Collaborated with backend engineers to design and implement RESTful APIs for seamless data exchange.

Professional Skills

- | | | |
|---------------------|---------------------------|--------------------------------|
| • JavaScript (ES6+) | • HTML5 & CSS3 | • Web Performance Optimization |
| • React.js | • Responsive Design | • RESTful APIs |

Projects

E-Commerce Dashboard

 Alibaba Group (June 2020 - Present)

Developed a responsive admin dashboard for managing e-commerce products, orders, and customer data. Implemented data visualization using React and D3.js, providing actionable insights for business decisions.

Video Interaction Platform

 ByteDance (July 2017 - May 2020)

Led the frontend development of a video interaction platform, enabling users to engage in real-time video discussions. Utilized WebRTC for seamless video streaming and developed a user-friendly interface with Vue.js.
